

# Electrophoresis Power Supply

EPS100

## Features

EPS100 is a digital electrophoresis power supply and it can simultaneously run 2 electrophoresis units

- Operates in constant current & constant voltage mode
- Digital display for volt, current & timer
- Runs gels simultaneously
- Feather touch buttons
- Over-load & short-circuit protection

## Specifications

Voltage	0 ~ 300V
Current	0 ~ 100mA
Output Power	30 Watts
Outputs Terminals	2
Timer	0 ~ 9.99hrs
Voltage	200-260 AC/50Hz
Dimensions (mm)	240 x 160 x 110 (mm)
