

Electrophoresis Power Supply

EPS500

Features

EPS500 is a digital electrophoresis power supply and it can simultaneously run 4 electrophoresis units

- Operates in constant current & constant voltage mode
- Digital display for volt, current & timer
- Runs gels simultaneously
- Feather touch buttons
- Over-load & short-circuit protection

Specifications

Voltage	0 ~ 500V
Current	0 ~ 500mA
Output Power	300 Watts
Outputs Terminals	4
Timer	0 ~ 9.99hrs
Voltage	200-260 AC/50Hz
Dimensions (mm)	240 x 160 x 120 (mm)
