

# Glass-Bead Sterilizer

GBS2

## Features

GBS2 is a sterilizer uses Glass-Bead at high temperature to rapidly disinfection of small metal and glass items in ten seconds, effectively eliminate bacteria and spores, and can be used for disinfection of scissors, forceps, scalpels, needles, inoculation rings and inoculation needles

- Easy to operate, small and durable
- LCD display, up to 300°C
- Stainless steel container with high-performance heating elements
- High-precision temperature controller and over-temperature protection

## Specifications

Temperature	100 ~ 300°C
Temp. Discrepancy	≤ 5°C
Heating time	≤ 21min
Chamber Size	Φ 40 x 140mm
Power	250W
Voltage	AC100 ~ 120V / AC200 ~ 240V; 50-60Hz
Weight	300g
Dimension (mm)	150(W) x 135(D) x 205(H)
