

Hot Plate Stirrer

HPS20

Features

HPS20 adopts special and most durable enamel coated heating top technology

- LED display for easy reading
- Safety and strong stirring performance
- Hot surface warning to prevent burns
- External temperature probe
- Automatically identifies temperature sensor
- Easy to clean, safe and durable

Specifications

| | |
|------------------------|----------------------------------|
| Speed | 50 ~ 1500rpm |
| Temperature Range | Ambient +5 ~ 340°C |
| Temp. Display Accuracy | ±3°C |
| Temp. (Min. ~ Max.) | 50°C ~ 390°C |
| Temp. Sensor | PT1000 (external) |
| Plate Dimension | φ 180mm |
| Max. Stirring Capacity | 20L |
| Power | 600W |
| Voltage | AC100~120V / AC200~240V; 50~60Hz |
| Weight | 5kg |
| Dimension (mm) | 220(W) x 360(D) x 95(H) |
