

Moisture Balance

MB100

Features

MB100 is a reliable moisture analyzer; offers superior sensitivity, speed of response, and calibration stability

- Large LCD screen for easy operation in the dark, visual comfort
- Touch screen operation, testing easier
- High-precision insulation sensor, collect data and temperature reliable
- Using halogen heating and drying, rapid heating, the test time is short

Specifications

Max. Capacity	100g
Readability	1mg
Moisture measurement accuracy	±0.5% (sample ≥ 2g)
Moisture content determination readability	0.02%~0.1% (sample ≥ 2g)
Temperature control adjustment tolerance	±1°C
Moisture range	0% ~ 100%
Heating Temperature Range	60 ~ 160°C
Heating Time Range	0 ~ 99 min
Heating	Halogen Lamp
Analytical method	Manual, timed, automatic
Interface	USB
Dimensions	350x215x192mm
Weight	4.5kg
