

Micro-Plate Shaker

MPS4

Features

MPS4 is an orbital shaker for 4 micro-plates (PCR, ELISA, Deep-Well)

- Simple and convenient to operate, safe and stable without noise
- LCD display; temperature, time and speed display
- Microprocessor controls the accurate speed and time
- DC brushless motor, provide gentle oscillation without fluctuation
- 3 Set time arbitrarily, and automatic alarm after the timing is over
- 4 standard micro-plates can be placed to efficiently mix the samples
- Can be used in low temperature or incubator
- With power-off recovery function, the instrument can automatically resume operation according to the original setting program after power-off recovery

Specifications

Speed	200 ~ 1500rpm
Amplitude	3mm
Timer	0 ~ 99h59m
Capacity	4 micro-plates
Voltage	AC100~120V / AC200~240V; 50~60Hz
Weight	5.6Kg
Dimension (mm)	280(W) x 278(D) x 126(H)
