

PCR Plate (0.2ml - Half Skirt)

(DNase, RNase, DNA and Pyrogen Free)

PCR-PL9602-S

Features

PCR-PL9602-S are 0.2ml, 96-well Half-Skirt PCR Plate in natural color for PCR & qPCR application

- Uniform wells ensure optimal heat transfer and reaction efficiency
- Maximum thermal conductivity for precise thermal cycling
- Reproducible, specific, and sensitive PCR results
- Made from exclusive polypropylene
- Free of DNase, RNase, DNA and Pyrogen
- Same as ABI Cat# 4346907
- Compatible with the PCR machines are as following

ABI 2700, 2720, 9700, 9800, 7300, 7500, 7900 and ABI sequencing units; Biorad icycler, IQ, IQ5; Agilent MX3000, MX3005P, MX4000, Mastercycler ep realplex; Takara TP900/TP850, TP960/TP870, Genelight 9800, Linegene 9600; TL988-I/II, DA7600; etc.

Ordering Details

PCR-PL9602-S	0.2ml PCR Plate - 96 wells, Half-Skirt (10plates/pack)	10 Packs/Case
