

Rocker Shaker

RS10

Features

RS10 is a mixing device can be directly used in the greenhouse or in the freezer. It provides both soft and intensive mixing of solutions or nutrient media in vessels or plastic bags placed on the platform. When installed inside a bio-incubator it is ideal for growing cells and cell cultures in disposable plastic reactor-bags.

- LED display, convenient operation
- DC brushless motor and micro-processor control
- Continuous working
- Wear-resistant and low noise
- Stainless steel pallet and wear-resistant rubber platform, acid and alkali resistance, non-deformation, easy cleaning and anti-leakage

Specifications

Speed	10 ~ 100rpm
Operation Mode	seesaw in 10°
Timer	0 ~ 99m59s
Max. Load Capacity	5Kg
Voltage	AC110~230V; 50~60Hz
Dimension (mm)	284(W) x 264(D) x 134(H)

Accessories

	RS10/X1	Single Tray (S.S.) 300 x 240 (mm)		RS10/X2	Double Tray (S.S.) 300 x 240 (mm)
