

# Semi-Dry Blotter

SDB10E

## Features

SDB10E is a high quality and a durable semi-dry blotter for the efficient and rapid transfer of electrophoretic molecules onto the membranes

- Minimal buffer required
- Insulated gasket, avoid short circuit
- Semi-dry type, fast transfers, save time
- Durable electrode, carbon plate
- Easy to operate & easy to clean

## Specifications

Gel Size	100 x 100 mm
Gel Thickness	0.25 ~ 10mm
Dimension (mm)	150(L) x 150(W) x 50(H)
